# Mission Critical Project Offerings

With 20 years of experience in advanced technology projects, our Mission Critical division dedicates a uniquely trained and experienced team to leverage our preconstruction & operational expertise. Having worked with many Fortune 500 companies on their mission-critical projects, we have the resources and necessary experience to meet our customer's expectations. The type of project offerings include:

- Greenfield Enterprise Data Centers
- New Hyperscale Data Centers
- Colocation Data Centers
- Electromagnetic Pulse (EMP) Protected Facilities
- Specialty Operations Centers
- Call Centers
- SCIFS (Sensitive Compartmented Information Facilities)
- Additions To Existing Facilities
- Retrofit/Renovations
- First-Generation Fitouts
- White Space Fitouts
- Tenant Upfits
- Equipment Replacement & Upgrades
- Advanced Equipment & MEP Systems Upgrades
- Modular/Containerized Data Centers
- MEP Service & Maintenance

# Markets We Do It All

Before a project begins, understanding the precise needs of the client is our first priority. We have worked with organizations in multiple lines of work, including but not limited to the following industries:

# Experience

## Committed to Exceeding Expectations

ColonialWebb's humble beginnings go all the way back to 1972. Since then, the company has evolved to become one of the largest commercial, mechanical, and electrical contractors in the region.

### Expertise

Our dedicated team has the technical expertise and experience to tackle complex issues advanced technology companies face today in their facilities.

### Versatility

Building and maintaining a facility such as a data center is no easy feat. Our business groups include Construction, Building Service, Industrial Refrigeration, and Manufacturing. We provide service to customers ranging from small businesses to Fortune 500 companies.

### Reliability

When you combine our nearly 50 years in business, regional strength, relationship with Comfort Systems USA, and sister companies across the country, our financial, operational, and technical resources make us a dependable source that is unrivaled in the area.
